

VARDHAMAN AINAPURE

Software Developer | Java Full Stack Developer | Frontend Developer

Bangalore, India | +91 7337855102 | vardhamansocial0@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Recent Computer Science graduate seeking an entry-level Software Developer role. Skilled in programming, problem-solving, and web development, with a passion for building scalable, high-performance, user-centric applications. Eager to contribute in a collaborative team while continuously learning and applying software development best practices.

EDUCATION

Bahubali College of Engineering & Technology, Shravanabelagola **Dec 2022 – July 2026**
Bachelor of Engineering, Computer Science & Engineering *CGPA: 7.0*

SGV Mahesh PU College, Belagavi **Aug 2020 – April 2022**
PCMB (Physics, Chemistry, Mathematics, Biology) *Percentage: 65.0%*

SKILLS

Languages	Java, JavaScript (ES6), React (Basic)
Web Technologies	HTML5, CSS3, JSP, Servlets
Backend & Database	SQL, Oracle, JDBC, Firebase (Firestore, Auth), Relational Database Design
Core Concepts	Object-Oriented Programming, Data Structures
Tools & Platforms	Git/GitHub, Maven, Apache Tomcat, Netlify, AI-assisted development tools
Soft Skills	Problem-solving, Technical documentation, stakeholder communication, task ownership

EXPERIENCE

Tap Academy – Java Full Stack Developer Intern **Feb 2026 – Present (Remote)**

- Completing Java Full Stack training program: Core Java, Advanced Java, JDBC, SQL, HTML, CSS, Servlets, JSP.
- Built full-stack e-commerce application (Fashion Store) with authentication, catalog, and order management modules; designed relational database schema with JDBC-based data persistence.
- Deployed Java web applications on Apache Tomcat using Maven for build automation.

PROJECTS

Marvel Movies Website. ([Live Demo](#)) ([GitHub](#))

- Designed and developed a responsive Marvel-themed website showcasing movies, web series, and character information.
- Implemented modern UI/UX, smooth animations, and interactive components using HTML, CSS, and JavaScript.
- Optimized website performance and responsiveness to provide an engaging user experience across desktop and mobile devices.

3×3 Rubik's Cube Solver. ([Live Demo](#)) ([GitHub](#))

- Developed an interactive web application that solves a 3×3 Rubik's Cube using computer vision and image processing techniques.
- Integrated laptop camera support to scan cube faces and generate accurate step-by-step solving instructions.
- Built a responsive and user-friendly interface using HTML, CSS, and JavaScript for seamless cross-device compatibility.

Gym Pro – Fitness Website. ([Live Demo](#)) ([GitHub](#))

- Developed a modern fitness web application with a responsive dark-themed interface and premium UI design.
- Implemented workout planner, BMI calculator, nutrition guidance, interactive anatomy model, and exercise recommendations.

- Leveraged HTML, CSS, and JavaScript to deliver smooth animations, responsive layouts, and an enhanced user experience.

CERTIFICATIONS

- Google Analytics – Google
- Oracle Cloud Infrastructure – Oracle
- Python Bootcamp, CodeWithHarry
- Python For Data Science, IBM

EXTRA-CURRICULAR ACTIVITIES

Led a student team on an academic project, coordinating task allocation and ensuring on-time delivery. Placed 1st in an inter-college gaming competition, demonstrating strategic thinking and team coordination.
